Dear Judge Hurley

I know I committed a crime. I know as supposed to put me away for some time, but I was a drug user caught up in a situation that I was already in too deep. I can take responsibility for what I possessed. I was raised up by my mom with a father and she taught me right from wrong but I was hanging around a friend who was a bad influence. Other than I knew about drugs is my co-defendant told it and I just use some and sold some. I was sad because I was a big disappointment to my mom. I never finished high school, most of the times I was depressed then I used drugs to try to feel good but the depression still was there. I am not going to continue whining in this letter. I just know now I have a son that I left out there and he needs me. I made a big mistake and I acknowledge that I must pay for it. I fully cooperated with the Agents. I gave them information about two people and they claim that information I gave about the supplier was weak when the supplier is now still free and I had more information but they did not visit me anymore. My co-defendant doesn't like what I did but I don't care what he thinks. I feel I did everything in my power to get back home with my family. I truly believe

Know anymore than what I told because I was
not the master mind in this conspiracy and the
evidence proves that. I learned my lesson the hard
way and I lost my life I will never break the
law again cause being locked away from my family
is pure misery and torture. I love my son
and his mother and my mother, brothers, and a
grandmother. Mr. Hurley I am begging for mercy
please don't put me away from my family
please. I don't want to go to prison. I
am not a cold blooded killer I am a drug
addict but the probation officer is asking for
you me time that is really unfair. Judge
Hurley Please Please.

Respectfully Yours

Montana Elia
